

# 2110 Manpack Transceiver Backpacks

The 2110 Manpack Transceiver is designed to be used on the move. Codan offers a range of comfortable backpacks ideal for easy portability and ample storage.

## SOFTPACK

Ultra lightweight and compact backpack for the 2110 transceiver.

Two 4 litre side pockets and one 3.5 litre bottom pocket ensures that the transceiver and all accessories are contained in a neat and highly functional

backpack, while still allowing room for personal items.

Consists of a comfortable harness with internal bracing, hip belt and sternum strap.

Material: Cordura  
Standard colour: Black

Softpack Backpack

## INTERNAL X FRAME

Internal X Frame Backpack

Expedition quality and ergonomic backpack using high quality components and manufacturing techniques.

Two 5 litre side pockets and one 3 litre bottom pocket for accessories and storage. Includes a front pocket to hold an A4 size documents. The contoured harness is based on an internal cross frame, which ensures the

2110 is held firm and is well balanced on the body for unparalleled comfort. Self-aligning, padded hip wings ensure weight is evenly distributed across the body and they swing out of the way for storage.

Material: 1000 Denier Cordura  
Standard colour: Black

## EXTERNAL FRAME

Heavy duty backpack with adjustable semi-flexible contoured external frame as preferred by various professional and government organisations. Its modular design allows for additional loads of up to 50 kg to be attached.

Two 5 litre side pockets and one 3 litre bottom pocket for accessories and storage. Includes a front pocket to hold an A4 size

folder and the Getting Started Guide.

Ergonomic shoulder harness with ventilation panel ensures maximum comfort even during long treks.

Material: 1000 Denier bulked filament nylon, and co-polymer frame  
Standard colour: Black
